

Software Development Engineer

We are looking for a software development engineer with extensive desktop development experience in a Microsoft client-server environment. The ideal candidate will have experience with multiple integration projects using third-party APIs including open source projects. This individual thrives in an agile work environment that requires strong problem-solving skills and independent self-direction, coupled with an aptitude for team collaboration and open communication.

Location

- Miamisburg, Ohio

What we are looking for

- You have 3+ years of hands-on experience in a Microsoft client-server environment using C# and C++ including Multi-Threaded C++ development in a Windows environment
- You have 2+ years of experience with Microsoft SQL Server including development of Stored Procedures, triggers, database access, SQL jobs, queries, and scripts
- You have hands-on experience with WinForms based desktop applications
- You have hands-on experience in a Web Browser environment using JavaScript and C#.net
- You have extensive experience with Microsoft Visual Studio and Team Foundation Server
- You love delivering products and learning new things
- You're motivated, talented, like a good argument, but listen well too
- You have a strong interest in everything related to the cloud
- You love working in an agile product development team
- You have excellent communications skills, verbal and written
- You have a bachelor's degree in Computer Science or related field.

What you'll be doing

- Working on the Frontier Security access control product, a real-time client/server application
- Be part of a collaborative, friendly, and open environment with a small agile team
- Enrich the team with your knowledge and insight
- Researching technology trends
- Performing other duties as assigned

What makes you special

- Experience with Microsoft WPF and MVVM is a strong plus
- Experience developing Web Services and Web API's is a strong plus
- Experience with JavaScript libraries such as jQuery, Dojo or ExtJS is a plus

For consideration, please submit your resume with salary requirements to hr@matrixsys.com and reference "Software Development Engineer" in the subject line.

We are an Equal Opportunity Employer.
