

Senior Technician

We are looking for a senior technician who is positive, motivated, and self-reliant. The senior technician will install and maintain Enterprise Level Access Control, and CCTV systems, coordinate product and processes to ensure projects are delivered on time and meet the specified scope of work. The ideal candidate has experience with low voltage installation, project or deadline management, and customer relationship building. Candidates should be prepared to complete a background check, provide legal documentation to work in the United States, and be able to work 40 hours per week minimum.

Location

- Columbus, Ohio

What we are looking for

- Possess High School Diploma or equivalent
- 3 Years equivalent work experience or bachelor's degree in appropriate field of study
- Excellent client-facing and internal communication skills
- Strong organizational skills including attention to detail and multitasking skills
- Experience installing and/or servicing intrusion, access control, and CCTV security systems
- Ability to travel to customer sites
- Ability to climb ladders that extend up to 30 ft. in height
- Ability to carry up to 50 pounds
- Ability to work on-call covering after hours & weekend emergency calls

What you'll be doing

- Coordinate internal resources and vendors for the execution of projects
- Coordinate product and internal processes to meet project timelines
- Install and maintain Enterprise Level Access Control, and CCTV systems
- Complete projects on time, within budget, and within scope.
- Manage changes to the project scope
- Report and escalate to management as needed
- Build and maintain strong, long-lasting client and vendor relationships
- Use and continually develop leadership skills
- Troubleshoot system installations to ensure proper function and compliance to local, county, state or federal codes; legal and/or insurance requirements
- Perform scheduled, routine preventive maintenance on a variety of equipment/systems by inspecting, adjusting, cleaning, and calibrating systems to ensure satisfactory working order
- Maintain company property and documentation in accordance with established policies
- Adhere to and support company policies and procedures, including safety requirements
- Keep abreast of changes and new developments in products and technology and complete training programs as assigned
- Perform other related duties as assigned

What makes you special

- Proven ability to juggle multiple projects at a time, while maintaining sharp attention to detail
- Experience with access control, networking, cabling, computers, or other technical products or services a plus

For consideration, please submit your resume with salary requirements to hr@matrixsys.com and reference "Technician" in the subject line.

We are an Equal Opportunity Employer.
