

Field Technician

SGI Matrix, LLC is seeking a Field Technician who is positive, motivated and self-reliant. The Field Technician will install and maintain Enterprise Level Access Control, and CCTV systems. Candidates should be prepared to complete a background check, provide legal documentation to work in the United States, and be able to work 40 hours per week minimum.

Location

- Cincinnati, OH

What we are looking for

- Three years' experience installing and/or servicing intrusion, access control, and CCTV security systems
- Possess High School Diploma or equivalent
- Possess valid state driver's license, without restrictions
- Portrays a professional image both in personal and vehicle appearance
- Ability to climb ladders that extend up to 30 ft. in height
- Ability to carry up to 50 pounds
- Ability to work on-call on a rotational basis covering after hours & weekend emergency calls
- Availability to travel when requested
- Successful completion of drug screen, background check, and motor vehicle report
- Ability to provide basic hand tools

What you'll be doing

- Installs and maintains Enterprise Level Access Control, and CCTV systems
- Completes terminations, and equipment installations according to customer and contractual requirements
- Troubleshoots system installations to ensure proper function and compliance to local, county, state or federal codes; legal and/or insurance requirements
- Performs scheduled, routine preventive maintenance on a variety of equipment/systems by inspecting, adjusting, cleaning, and calibrating systems to ensure satisfactory working order
- Communicates preventive maintenance reports as work is completed
- Promotes, builds, and maintains good customer relations and assists with contract retention
- Maintains company property and documentation in accordance with established policies
- Handles proprietary information in the prescribed manner
- Adheres to and supports company policies and procedures including safety requirements.
- Keeps abreast of changes and new developments in products and technology and completes training programs as assigned
- May plan schedules, lay out basic electronic equipment installations, and assist in the start-up and check-out of new system installations

MATRIX

What makes you special
